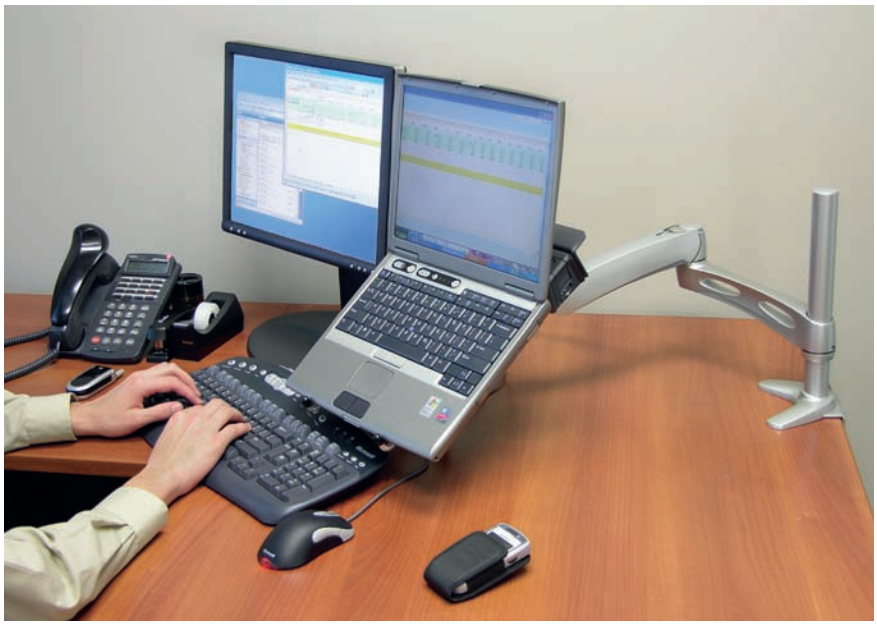
Ergotron® LX

Notebook Desk Mount Arm and LX Dual Arm



Highlights

- Constant Force (CF™) patented lift-and-pivot motion technology produces smooth adjustment
- Position your notebook screen for maximum ergonomic comfort to relieve eye, neck and back strain
- Free up a significant area of unused work space
- 33 cm (13") vertical range
- Internal cable management routes cables neatly under arm
- Easy set-up and use
- 5 year warranty

More motion. Less effort.
Feel the difference.

Make the most of your valuable workspace with Ergotron's LX Desk Mount Arms. Lifting your notebook computer and/or display off the desktop reclaims workspace and positions the screen to relieve eye, neck and back strain. Choose between our single or dual arm configurations. These ingenious accessories enable you to customize your workspace to meet your specific needs. Create a productive side-by-side dual display solution or simply lift your notebook computer off a desktop for more comfortable viewing.

- Save cost by eliminating the expense of an extra screen or
- Create a productive side-by-side dual display configuration
- Effortlessly lift your notebook to eye level for maximum ergonomic comfort
- Free up your work surface
- Share your notebook display
- Use notebook with or without docking station
- Compatible with standard notebooks and convertible tablet computers

Enhance productivity by increasing monitor screen space with our dual arm configuration.

Lift both the notebook computer and docking station off the workspace to reclaim valuable surface area.

Cables are guided along underside of arm for a clutter-free work area.

LX Notebook Arm mounting plate can be adjusted to fit a variety of notebook computer sizes.

Attach LX Notebook Arm at any height on pole.

Desk clamp base uses little space yet ensures stability even as notebook is adjusted. (Shown in black.)
